## A NEW CONCEPT OF BOAT IN TANJUNG PUTING

**Kalimantan Explorer** is a powerful Kalimantan Klotok renovated the finest handmade and recycled resistant tropical hardwoods by master boat builders Ara Buginese Tana Beru, South Sulawesi. This magnificent klotok is the essence of the traditional boats that have plied for decades the Spice islands with all the comforts and security that one would expect from a boat in its class.

**Kalimantan Explorer** has a simple but practical decor, a spacious cabin with air conditioning and bathroom with hot water, large outdoor deck, delicious fusion of East and West and the smiles and professionalism of its crew, a perfect combination to discover the Tanjung Putting secrets.

## 10 REASONS TO CHOOSE KALIMANTAN EXPLORER

We are pioneers in offering a little luxury in the heart of the jungle of Tanjung Putting designing and building a new style of klotok with a range of services just like a small floating hotel klotok a classic tailored to the needs of a discerning traveler profile .

### Cabin:

Kalimantan klotok Explorer is the only operating in Tanjung Putting private cabin available. It features a master stateroom suite Aura soundproofed and a tent / cabin Solaria tendon located on the foredeck of the ship. Total passenger capacity is 5 adults

### Air conditioning:

Some times of the day Tanjung Putting the temperature can reaches 35 degrees with a humidity of 80 to 100% and down to 23 ° at night. In the main cabin of klotok, Aura suite can enjoy air conditioning during the hottest hours of the day.

### Hot water:

The ship has a bathroom with shower with hot water

### Clean water free of mercury:

Most klotok and lodges are supplied Sekonyer river water for showers, washing kitchen utensils and laundry. These rivers are contaminated with mercury from gold mining and coal carried out upstream, in turn are the same waters where the rest of the ships dump their sewage. Hygiene is a priority and our klotok has a reservoir of 600 liters of clean water extracted from aquifers away from contaminated areas.

### Silent:

The name Klotok comes from noise of the boat engines. Most do not use klotok exhaust pipes or mufflers with the resulting noise and inconvenience to deck passengers. We soundproofed to the extent possible the engine and electric generators to ensure a pleasant and quiet journey inside the forest, a clear advantage when looking for navigating the abundant wildlife that were stationed on along the river.

### Electricity 24:

We know how important it is to enjoy a cold beer or recharge the batteries in your camera or video in the jungle, so we offer our two generators and load outlets 24 hours a day.

**Private WC:**

The rest of the klotok have a single service for the crew and passengers. We have carefully designed a klotok some detail with two services, one large enough only for the western passage and a separate toilet for the crew.

**Space:**

A 19 meters long Kalimantan Explorer is one of the largest klotok operating in Tanjung Putting. It has a large terrace / balcony at the stern for the cam.

**Recycling:** In our commitment to preserving the ecosystem for the reform of the boat we used 70% of iron or Ulin wood recycled from other boats in use. All bottles and metal cans used in the trip are sent to a recycling center in Pankalan Bun.

**Central reservations:**

We have a representative office in Bali and Bun Pankalan for booking hotels and airline ticketing with connections to Bali, Surabaya, Jakarta, Semarang and Banjarmasin

## TANJUNG PUTING A NATURAL SANCTUARY

**Tanjung Putting** is a special place. Located in the heart of the jungle of Borneo is home to a unique ecosystem that can survive only if we respect and care.

**Tanjung Putting** has a rich variety of birds, insects, reptiles and mammals, some can only find in this part of the world. You will have the luck to observe in the wild from the smallest insect or insect-eating plant at the majestic sea eagle flying, acrobatic movement of geckos and butterflies, timid movements pythons, tarantulas and crocodiles, wild boar races of Borneo The colorful flight of the kingfisher, the elusive crescent bears, playful monkeys and gibbons, proboscis monkeys noisy and of course orangutans.

### **Tanjung Puting 02 Day 03 Day: Pondok Tanguy – Camp Leakey – (Island of Borneo)**

During these two days we will have the opportunity to see great diversity of this rich ecosystem located in the south of the island of Borneo. Visit the two orangutan rehabilitation centers within the National Park to coincide with the time they are provided with daily meals. They share the habitat with gibbons, orangutans, monkeys probistideos, monkeys, crocodiles and a variety of endemic birds. Every evening moor our boat to sleep near probistideos colonies or near the nipa palm areas where thousands of fireflies light up the night in the jungle. Visit the interpretive center founded by

Birute Galdikas biologist at Camp Leakey. This program is developed in the Tanjung Putting National Park, a visit takes place in Kalimantan Explorer, a wooden boat "Klotok" of 19 meters in length dimensions that allow our guests to enjoy a large space on the boat during the days of browsing. They spend the night inside the boat fully equipped to sleep with mosquito nets, mattresses and sheets. The meals in the same boat, has a separate shower and a service crew. The crew make a captain, assistant and cook overnight with our guide in a separate space for customers. During the visit we walk inside the National Park rangers and accompanied by our English-speaking local guide. Walks inside the Tanjung Putting National Park are simple, tailored to the customer profile and require no physical preparation.
